6th edition
with insights

Coal industry across Europe

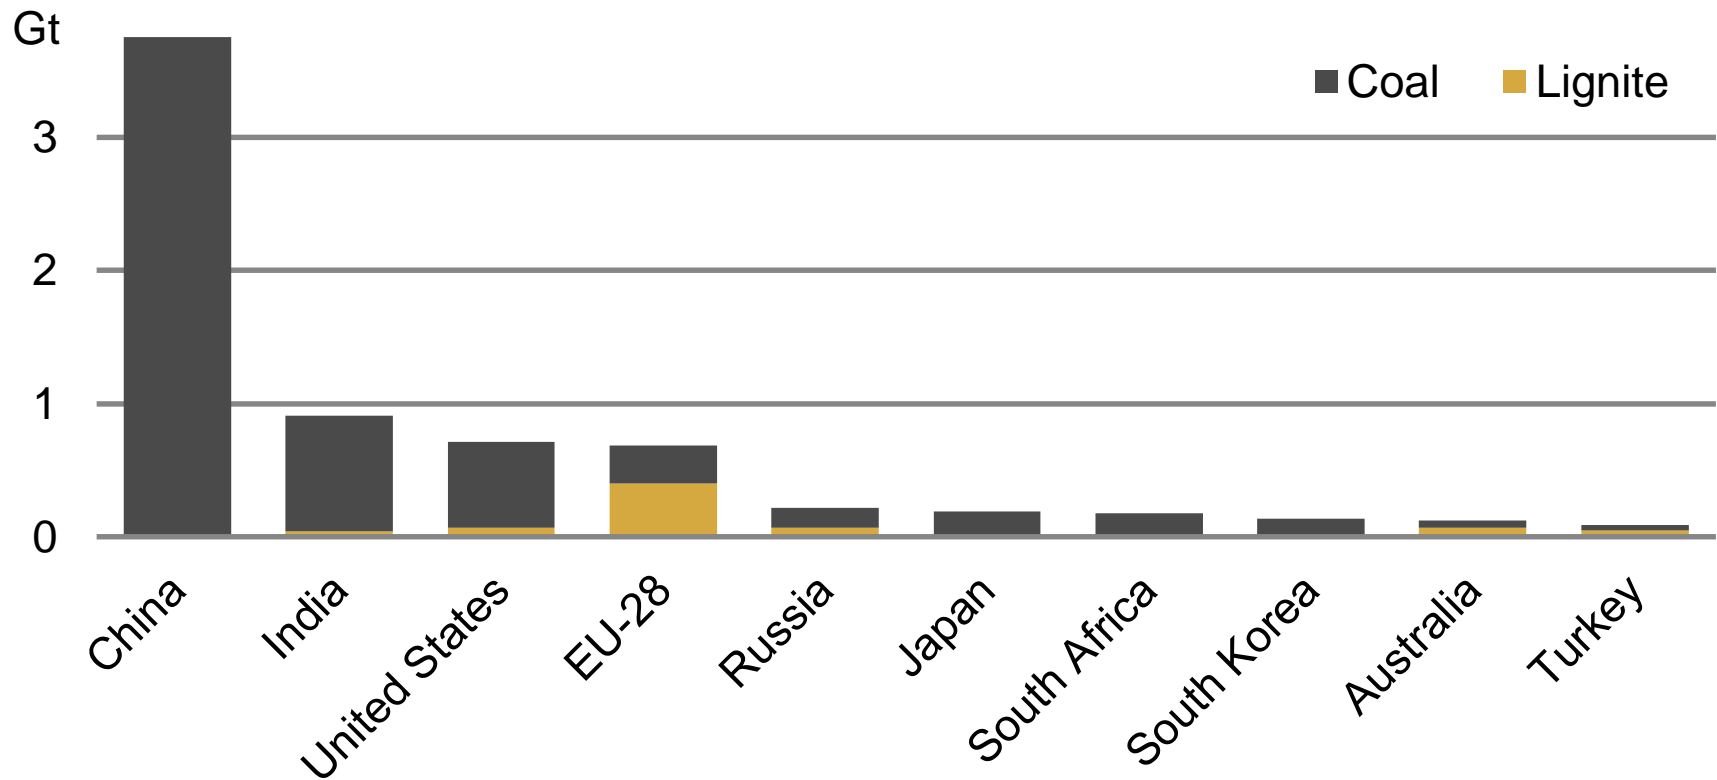

Change in total primary energy demand

Source: Presentation of IEA *World energy Outlook 2016*, London, 16 November 2016

Coal demand is still growing, but renewables will take over the lead in meeting future energy demand growth.

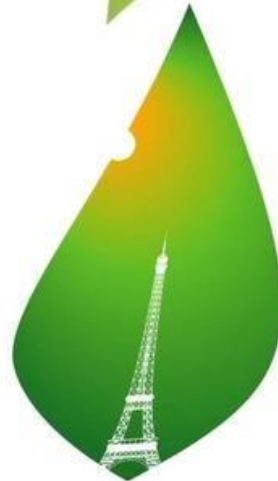

Largest coal users in 2015, billion tonnes

Source: *Coal industry across Europe*, 6th edition, EURACOAL

The EU is the world's largest lignite producer and the fourth largest coal-consuming region.
