

EURACOAL
European Association of Coal Producers

European Coal Days 2010

added value and social acceptance

"Open cast coal mining sometimes requires the resettlement of entire communities and their inhabitants. This is a major operation, which can only be accomplished if governments, authorities and the communities work closely together."

technology for t

"Coal is becoming more important. This is thanks to the investments in new stations and carbon capture technology in Europe."

safety and for ov

"Coal mining is a dangerous industry. These risks can be reduced by providing better training and safety equipment for workers."

Table with schedule information, including a pen holder and the word "SCHEDULE" visible on the table surface.
